A Pharmacology Overview & Update For Your Dental Team

Friday, September 24, 2021

Sign-In & Breakfast: 8:30-9:00 am (CST) | Course Starts: 9:00 am (CST)
a maximum of 7 clinical hours (lecture) | AGD #010 | Course #70-21-Video*

Registration Fees:

	Early Bird <i>(BY 12:00 pm / noon CST 8/6/21)</i>	Regular <i>(BY 12:00 pm / noon CST 9/17/21)</i>	Late <i>(AFTER 12:00 pm / noon CST 9/17/21)</i>
Dentist:	\$310	\$340	\$365
Hygienist/Lab Tech:	\$185	\$215	\$240
Dental Assistant:	\$100	\$120	\$145

* LSUCDE video courses are live-streamed via BlueJeans. CE administrators perform roll call and random check-ins via the chat window in BlueJeans. If you miss one or more check-ins it could affect your credits. Before the course you will receive three links: a link to the meeting, a link to a short test, and a link to a course evaluation.

You must submit the test and evaluation in order to receive credit. The Louisiana State Board of Dentistry counts CE hours earned through LSUCDE live video conference as in-person hours.

OVERVIEW

The challenge faced by all clinicians today is to provide safe and effective dental treatment to our medically complex patients. Thus, as dental professionals, we must be equally aware of the medical considerations of agents commonly used in the practice of dentistry as well as the dental considerations of the medications frequently prescribed for the treatment of multiple systemic diseases.

This program will present an overview of the basic principles of pharmacology in a format which makes it applicable, practical and useful for all members of the dental team. Using case scenarios, special emphasis will be given to drugs administered or prescribed in dental practice, as well as to medications whose actions, effects, or interactions with other drugs may impact dental therapy.

LEARNING OBJECTIVES

After attending this lecture, participants should be better able to:

- Describe the pharmacology of analgesics and appropriate prescribing practices for the management of acute dental pain.
- Discuss local anesthetic agents with respect to their mechanism of action, adverse effects and contraindications.
- Examine the pharmacology of anti-infective agents commonly used in dentistry and their clinical considerations.
- Discuss the prescription medications and nonprescription drugs and supplements most frequently encountered on a patient's medical history, including their potential impact on dental therapy and patient care planning.

ABOUT THE PRESENTER

Thomas Viola, the founder of "Pharmacology Declassified", is a board-certified pharmacist who also serves the professions of dentistry as a clinical educator, professional speaker, and published author. Tom is a member of the faculty of ten dental professional degree programs and has received several awards for outstanding teacher of the year. Tom has presented hundreds of continuing education courses to dental professionals, nationally and internationally, in the areas of oral pharmacology and local anesthesia and is well-known for his regular contributions to several dental professional journals. Through his informative, humorous and engaging live seminars and webinars, Tom has earned his reputation as the go-to specialist for making pharmacology practical and useful for all members of the dental team.

Continuing Education Recognition Program
LSU Health New Orleans Continuing Dental Education is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
