* The Live-Stream Video Conference option for this course is only available to those that live 120 miles or more from the course location. Video conference registrations for this course **MUST BE PROCESSED BY PHONE.**

LSUCDE video courses are live-streamed via BlueJeans. CE administrators perform roll call and random check-ins via the chat window in BlueJeans. If you miss one or more check-ins it could affect your credits. Before the course you will receive three links: a link to the meeting, a link to a short test, and a link to a course evaluation. You must submit the test and evaluation in order to receive credit. The Louisiana State Board of Dentistry counts CE hours earned through LSUCDE live video conference as in-person hours.

OVERVIEW

The dental profession has long since emerged from the gold and silver restorative era. In today's rapidly evolving arena, staying abreast of the latest in materials and products can be a tremendous challenge. This course aims to provide relevant updates for doctors seeking to stay current and understand cutting edge approaches to tooth restoration and preservation. Attendees are encouraged to come prepared with any questions they have and any clinical challenges they are facing. Dr. Hakim enjoys audience interaction and finding solutions together.

LEARNING OBJECTIVES

After attending this lecture, participants should be better able to:

- Know the evolving materials in the indirect and direct restorative arenas
- Discuss all critical delivery techniques and clinical challenges
- Understand the advancements in adhesives and composite delivery
- Determine when to deploy bio-active materials
- Know the contemporary approach to: non-vital tooth restoration and crown and bridge delivery (treatment planning, preparation, impression, provisionalization, and cementation vs. bonding)
- Use tips and tricks to improve efficiency and eliminate re-do procedures

ABOUT THE PRESENTER

Foroud Hakim, DDS has balanced private practice and dental education for over 27 years. He is former Vice Chair of the Department of Integrated Reconstructive Dental Sciences at University of the Pacific. Dr. Hakim has lectured nationally and internationally on topics ranging from technology, esthetic dentistry, occlusion, smile design, CAD/CAM, photography, and adhesive and composite dentistry. Dr. Hakim has several publications and has authored two chapters in the 2010 text, Esthetic Dentistry in Clinical Practice from Blackwell Publishing. Dr. Hakim earned his DDS and an MBA from University of the Pacific. He is a member of OKU dental honor society and past president of the Delta Delta Chapter. He is also a fellow and graduate of the ADEA Leadership Institute class of 2007 and sits on the board of Catapult Education.

Continuing Education Recognition Program

LSU Health New Orleans Continuing Dental Education is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
