

Calendar Print Settings

The 2017 CE Calendar can be printed full size (17 x 22 inches) in Adobe Reader. These settings should be set up before you print a full size calendar. Depending on your printer, some setting names may vary.

In order to print the full size calendar, print on 11 x 17 inch paper (ledger/tabloid size). You can print the calendar on 8.5 x 11 inch (letter size) paper; however, your calendar will be scaled down in size.

To print full size, select the following under Paper Sizing & Handling Settings in Print setting dialog box before you press print:

- Paper size: 11x17 (Ledger/Tabloid size)
- **Poster** should be selected. (Poster prints a PDF page across multiple sheets to form a mosaic.)
- Tile Scale: 90%
- Overlap: 0 in.
- Orientation: Landscape
