FRIDAY LECTURE

What's New in Pediatric Dentistry for the General Practitioner: The Cutting Edge
Friday, September 8, 2017
AGD #430 (Pedodontics)
Presented by Carla Cohn, DMD

Overview
This is the cutting edge of pediatric dentistry, and it is all geared towards the general practitioner and family practice. Our pediatric restorative patients are unique. We must treat our children while taking direction from their parents. We must treat a tooth all the while managing behavior. Our choices of materials and techniques are vast and varied. This course will cover several different restorative approaches to incorporate into the daily practice. Focus will be placed upon indications of each option. Learn to use materials that are suitable to different behavior management situations and explore the bioactivity of restorative alternatives. Dentistry for kids just got even easier and better. Learn the newest and most innovative techniques and procedures. Step into the future of pediatric dentistry for the general practitioner.

Learning Objectives
At the end of this course, participants should be better able to:
- Explore novel restorative procedures for primary dentition.
- Learn different approaches to restorative techniques.
- Bring cutting edge pediatric dentistry to your family practice.

CE Hours • Registration Fees
Friday Lecture Course #58-17-Fri
7 hours clinical CDE credit (lecture)

Early Bird Registration
(by August 11, 2017)
$369 (Dentist)
$125 (Staff: Hygienist, Lab Tech, and Assistant)
Registration fee includes handout materials, continental breakfast, and lunch on Friday.

Regular Registration
(by August 11, 2017)
$399 (Dentist)
$145 (Staff: Hygienist, Lab Tech, and Assistant)
Registration fee includes handout materials, continental breakfast, and lunch on Friday.

Saturday Workshop Course #58-17-Sat
13 hours clinical CDE credit: 7 hours live lecture/6 hours "hands-on" participation

Early Bird Registration
(by August 11, 2017)
$765 (Dentist)
$245 (Staff: Hygienist, Lab Tech, and Assistant)
Registration fee includes handout materials, continental breakfast and lunch on Friday and Saturday.

Regular Registration
(by August 11, 2017)
$835 (Dentist)
$285 (Staff: Hygienist, Lab Tech, and Assistant)
Registration fee includes handout materials, continental breakfast and lunch on Friday and Saturday.

Saturday Workshop Schedule (CE Hours)
7:00 am - 8:00 am Sign-in and Continental Breakfast
8:00 am - 12:00 noon Workshop with 15 min break
12:00 noon - 12:45 pm Lunch
12:45 pm - 3:00 pm Workshop
3:00 pm Adjourn

CANCELLATION & REFUND POLICY: The Louisiana Academy of Continuing Dental Education, Inc. (AGD#) LSU Health New Orleans Continuing Dental Education (CDE) reserves the right to cancel any course should circumstances warrant such action. If a course is cancelled, the Academy will refund the full tuition. If you cancel your registration, the Academy will refund the tuition you paid (minus an administrative cancellation fee of 10% of the full tuition). We must receive your written cancellation request no later than August 11, 2017 for both workshop and lecture) and no later than August 25, 2017 (for lecture only) by mail, fax at (504) 941-8403, or email at info@lucde.org. If LSU Health New Orleans CDE cancels a course (after the specified date), this will be done without prior notice. Nonrefundable Airline Ticket, Flight Change, or Hotel Reservation: LACDE (AGD# LSU Health New Orleans Continuing Dental Education) cannot be held responsible for the cost of a nonrefundable airline ticket, flight changes, or hotel room reservations in the event the course is cancelled or rescheduled. Please: No recording devices in lecture room or lab, and no mobile phones off. New Knowledge Related to Dental Practice: You are cautioned about the potential risks of using limited knowledge when incorporating techniques and procedures into your practice, especially when the course has not provided you with supervised clinical experience to ensure you have attained competence.
Carla Cohn, DMD

Dr. Cohn graduated from the Faculty of Dentistry at the University of Manitoba in 1991. She then went on to complete a post-graduate internship in Children’s Dentistry at Health Science Centre Children’s Hospital. She entered private practice after graduation and dedicated most of her first decade to working and raising her three sons. She was alarmed at the rampant tooth decay in very young children, despite all of the knowledge and education available on preventing tooth decay. Dr. Cohn wanted to help these children regain their health in a quick and efficient manner and thus began her second decade in practice. The focus of her private practice, at Kid’s Dental, is on prevention. As a dentist, she looks forward to a future in which we can truly see a decline in cavities. Change can only occur through education. Dr. Cohn’s goals for the future are to help educate the community, dental professionals and medical professionals on prevention of tooth decay.

Dr. Cohn has lectured nationally and internationally on risk assessment, prevention, behavior management and restorative treatment options. She evaluates dental materials for the Catapult Group and speaks as a clinician who has observed first hand and dealt directly with everything presented in her courses.

In Memory
This course and future courses in Dentistry for the Pediatric Patient are named in memory of Dr. Clifton O. Dummett Jr., a beloved faculty member in the Pediatric Dentistry Department of LSU School of Dentistry from 1974 to 2006. Dr. Dummett served as Pediatric Dentistry Department head from 2000 until his retirement in 2006 when he was honored with the title Professor Emeritus.
