

LSU SCHOOL OF DENTISTRY

Orofacial Pain Continuum™

Establishing a new category of CE for orofacial pain.

2021-2022

OVERVIEW

This comprehensive program focuses on the structural/functional aspect of TMD and Orofacial Pain but also addresses the neurological, psychological, and general health of the patient. Continuum directors and guest lecturers will discuss therapies and devices used to treat TMD and Orofacial Pain, emerging technologies, and share “tried and true” methodologies. Because many physicians and other health care professionals treat orofacial pain patients, they are encouraged and welcome to attend this continuum.

Specialty Designation / Certification

In May of 2020, the American Dental Association recognized Orofacial Pain as a new specialty. To be certified as a specialist in Orofacial Pain, a dentist must pass both the written and oral exams of the American Board of Orofacial Pain. If you are interested becoming certified, our continuum can help you prepare for your future success.

Focus on Functional / Structural Anatomy

LSU School of Dentistry's Orofacial Pain Continuum is the only one of its kind in the U.S. which combines a comprehensive focus on TMD and Orofacial Pain with renowned guest lecturers that are top in their fields (dentistry, sleep medicine/therapy, physical therapy, etc.), AND dedicates an entire session to anatomy with dissection.

SCHEDULE

ADA CERP®

Continuing Education Recognition Program | LSU Health New Orleans Continuing Dental Education is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
